OBJECTIVE

UI/UX Designer with 4+ years of overall IT experience, including 3+ years of specialized experience in designing enterprise, SaaS, and workflow-driven digital products across web and mobile. Skilled in translating complex business requirements and workflows into intuitive, user-focused experiences and collaborating with cross-functional teams to deliver scalable digital solutions.

SKILLS

Technical Skills

User Experience (UX), User Interface (UI), Product Design, User-centered Design, User Research, User Interviews, Design Thinking, Persona Development, Journey Mapping, Information Architecture, User Flows, Wireframing, Prototyping, Visual Design, High-Fidelity UI, Interaction Design, Design Systems, Responsive Design, Micro-interactions, Accessibility(WCAG), Usability Testing, Usability Evaluation

Tools

Figma, FigJam, Framer, Figma Make AI, Google Stitch, Lovable, Claude Design

Soft Skills

Communication, Collaboration, Adaptability, Continuous Learning, Attention to Detail

WORK EXPERIENCE

UI/UX Designer

Nov 2021 – Present

Torry Harris Business Solutions

- Led end-to-end UX/UI design for Torry Harris Digit Marketplace core features, including user research, workflow optimization, information architecture, wireframing, high-fidelity UI design, interactive prototyping, usability improvements, and developer handoff to deliver intuitive and scalable user experiences.
- Designed POCs, product experiences, and digital platforms across ecommerce, hospitality, telecom, government, AI, and enterprise domains, adapting UX strategies to diverse user needs and business contexts.
- Took complete ownership of migrating the design system from Ant Design to shaden/ui, reducing bundle size by 20%, improving load times by 15%, and ensuring greater flexibility in customization to align with brand identity for the marketplace application.
- Iteratively refined user experiences by incorporating stakeholder and developer feedback, improving design consistency, simplifying complex workflows, and designing responsive, user-centric interfaces across web and mobile applications while following accessibility and usability best practices.

PROJECTS

StockEase | AI-Powered Inventory and Billing Platform

- Designed an AI-powered inventory and billing solution for kirana retailers, addressing stockouts, overstocking, inventory wastage, and inefficient manual tracking.
- Conducted end-to-end UX activities including user research, surveys, competitor analysis, persona creation, empathy mapping, user flows, information architecture, wireframing, interactive prototyping and usability validation

- Created intuitive features such as AI-driven demand forecasting, smart stock recommendations, voice-based stock entry, and real-time analytics to simplify inventory management, improve operational efficiency, and support data-driven decision-making.
- Translated complex AI-driven recommendations into simple, actionable interfaces for non-technical users, focusing on clarity, usability, and ease of adoption.

Torry Harris Digit Marketplace | B2B Workflow Product

- Designed end-to-end UX/UI for a complex B2B/B2C marketplace serving multiple personas, including Platform Admin, Store Owner, Vendor, and Customer.
- Created intuitive workflows for vendor onboarding, form builder, product approvals, order management, and e-commerce purchasing journeys.
- Collaborated closely with product managers and developers to translate complex business requirements into scalable, user-centric, and development-ready design solutions.

Dubai Creative Community Digital Platform | Multi-Sided Digital Platform

- Designed and prototyped a digital platform connecting freelancers, businesses, suppliers, and distributors through hiring, networking, events, and collaboration workflows.
- Developed user-centered UI/UX solutions for onboarding, KYC verification, talent discovery, job posting, and subscription-based features, improving usability and workflow efficiency.
- Created scalable design systems and interactive prototypes in Figma while integrating AI-driven recommendations, profile optimization, and analytics dashboards to enhance user engagement and platform adoption.

EDUCATION

BE in Computer Science Engineering (CSE)

Guru Nanak Dev Engineering College, Bidar

Aug 2017 – Aug 2021

RECOGNITION

- Spot Excellence Award for impactful contributions that enhanced the overall effectiveness of UI/UX designs
- Star Performer Award for outstanding figma prototyping for 3IE with exceptional UI design

CERTIFICATION

- Complete Web and Mobile Designer: UI/UX, Figma, +more - Udemy
